Qualtrics Setup Guide for Provenance Logging

Initial Notes

1. Researchers need access to the paid version of Qualtrics.
2. CMU users can access it through their Andrew credentials.

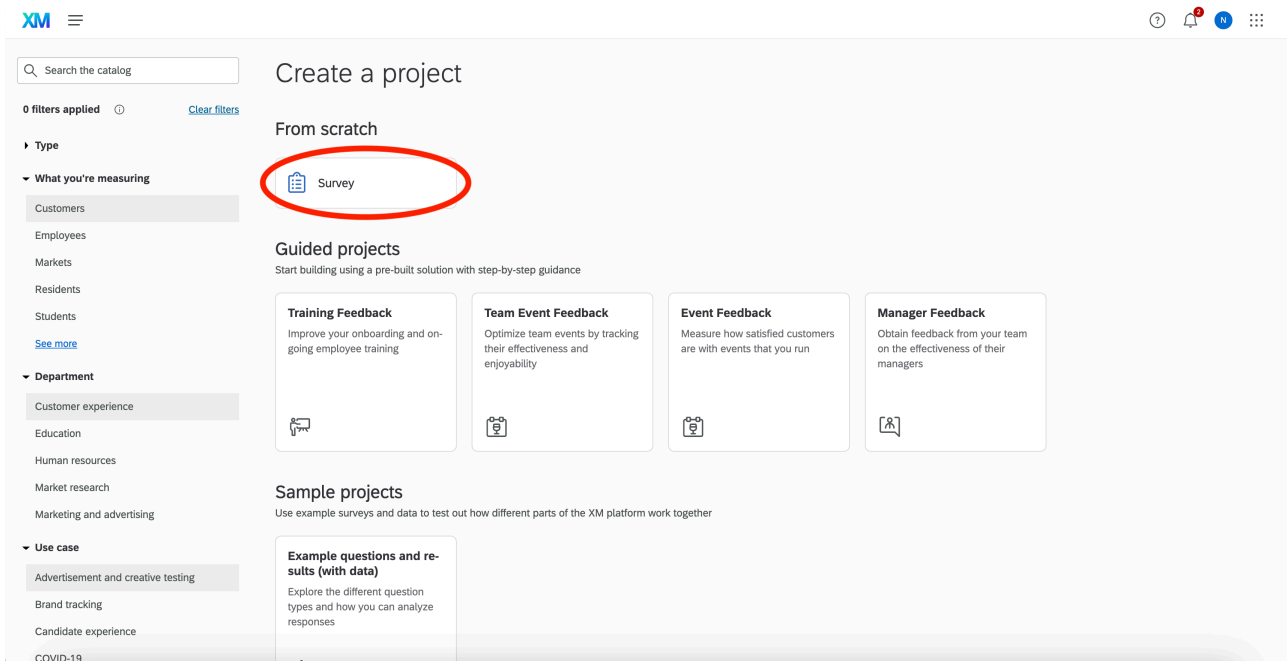

Step 1: Log In to Qualtrics

1. Navigate to the CMU Qualtrics portal via <https://cmu.yul1.qualtrics.com/>.
2. Sign in using your Andrew ID credentials.
3. Select Create New Project.

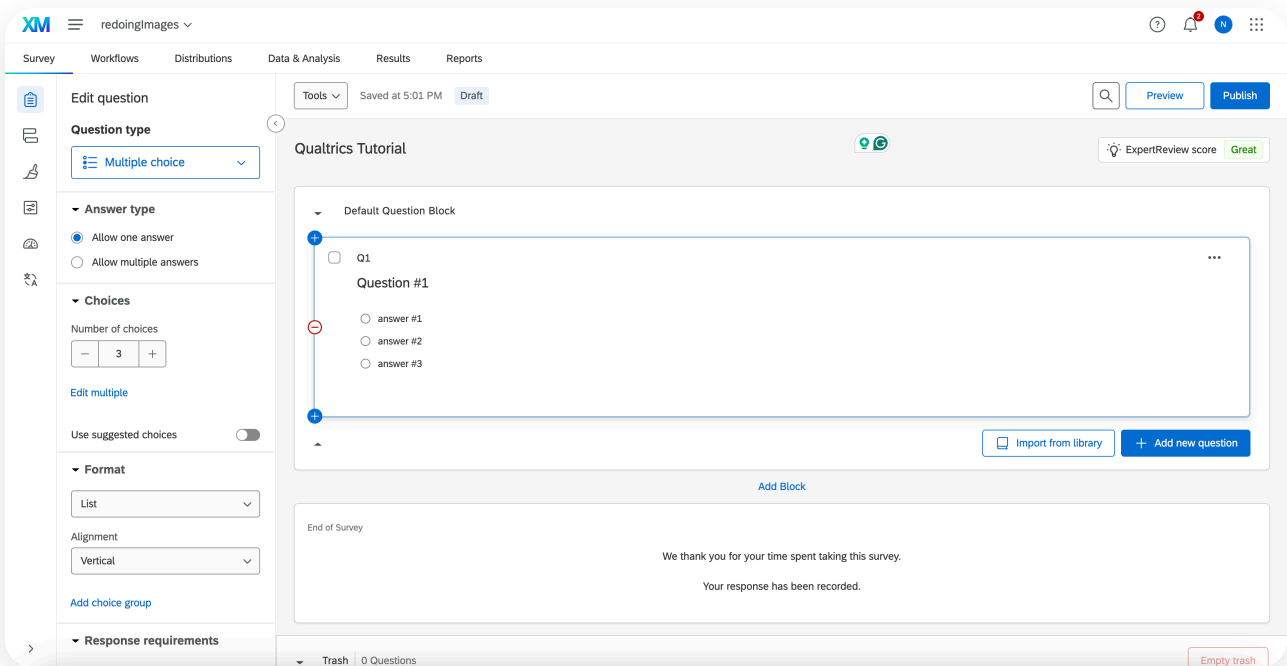

Step 2: Create a Survey

1. Choose Survey.

2. Enter a project name, and add one or more questions.

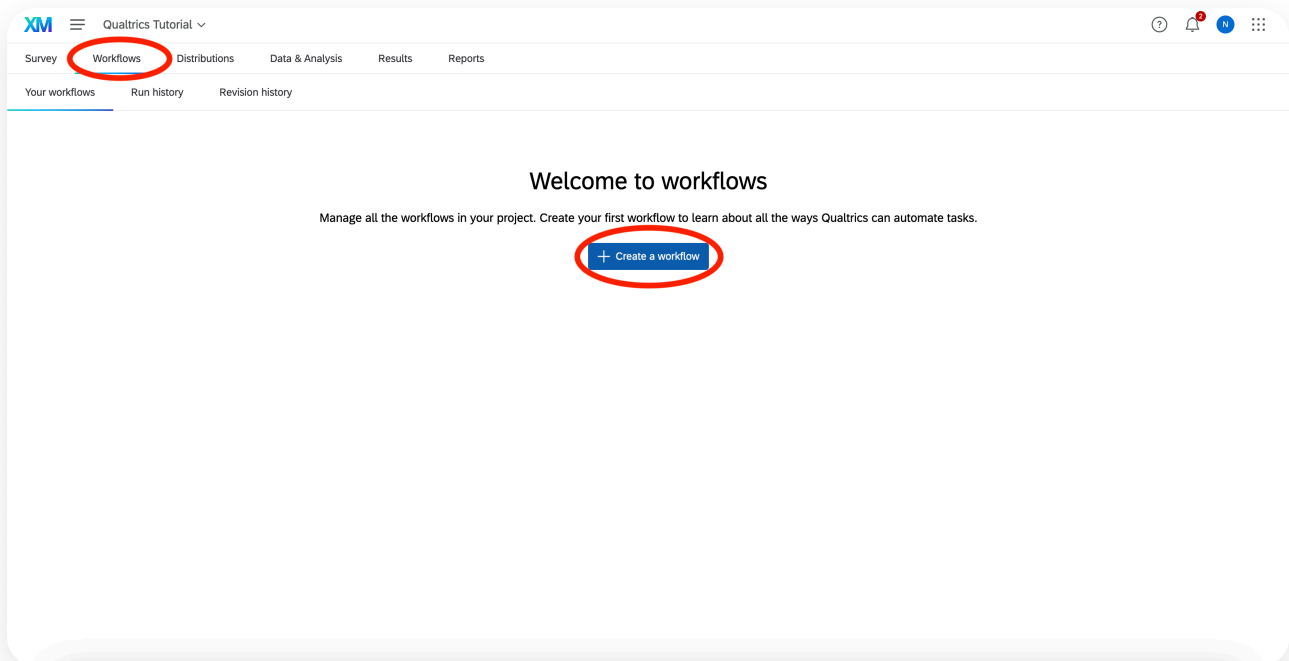

3. Add one or more questions.

Step 3: Open the Workflows Tab

1. Select the Workflows tab.

2. Click Create Workflow.

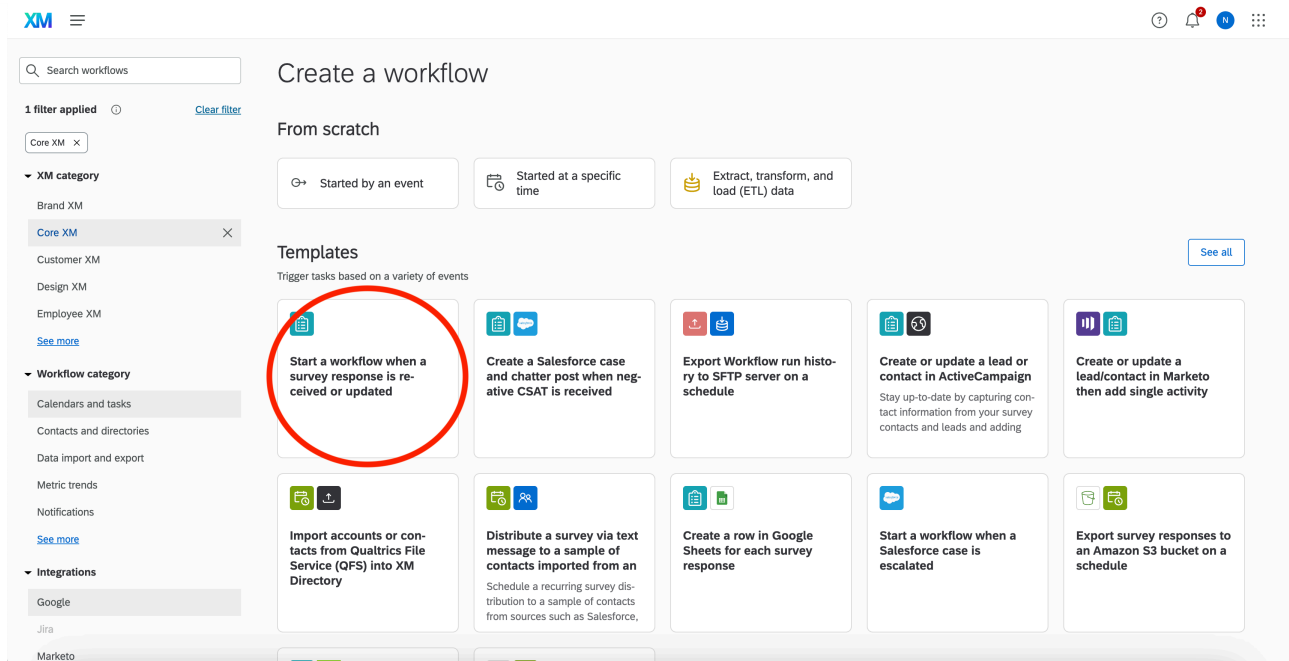

Step 4: Configure the Workflow Trigger

1. Click Browse Templates.

2. Select 'Start a workflow when a survey response is received or updated'.

3. Verify the correct survey is selected.

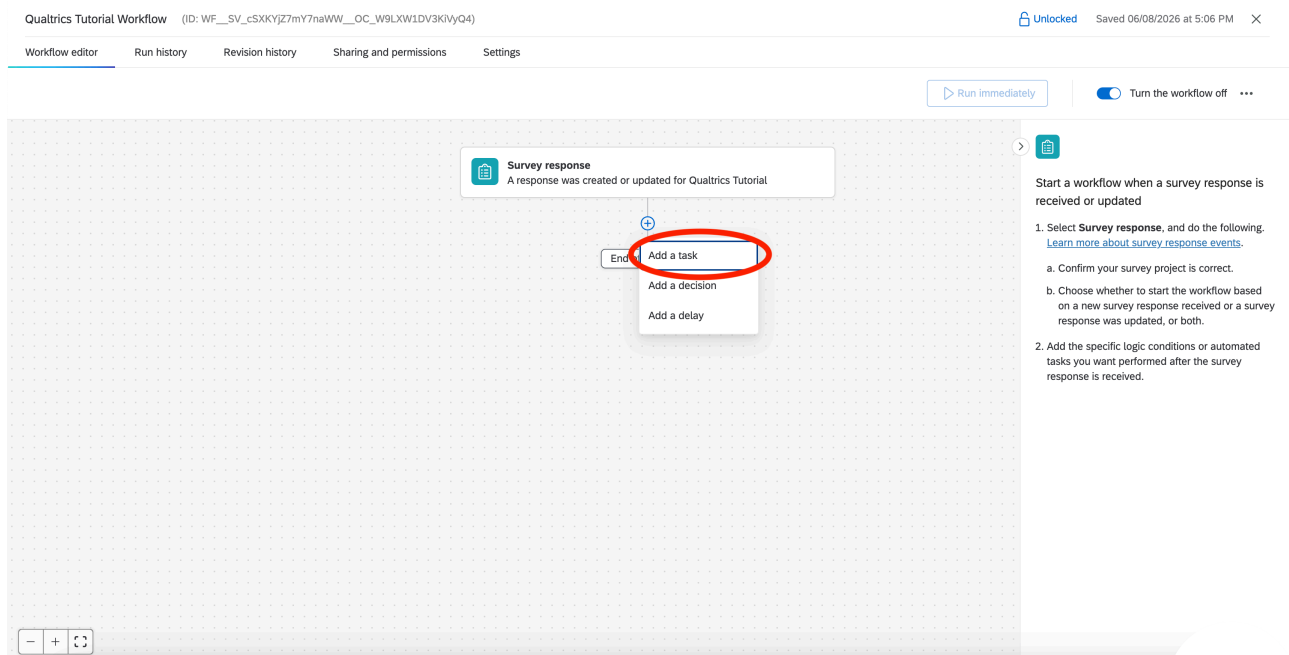

4. Enter a workflow name.

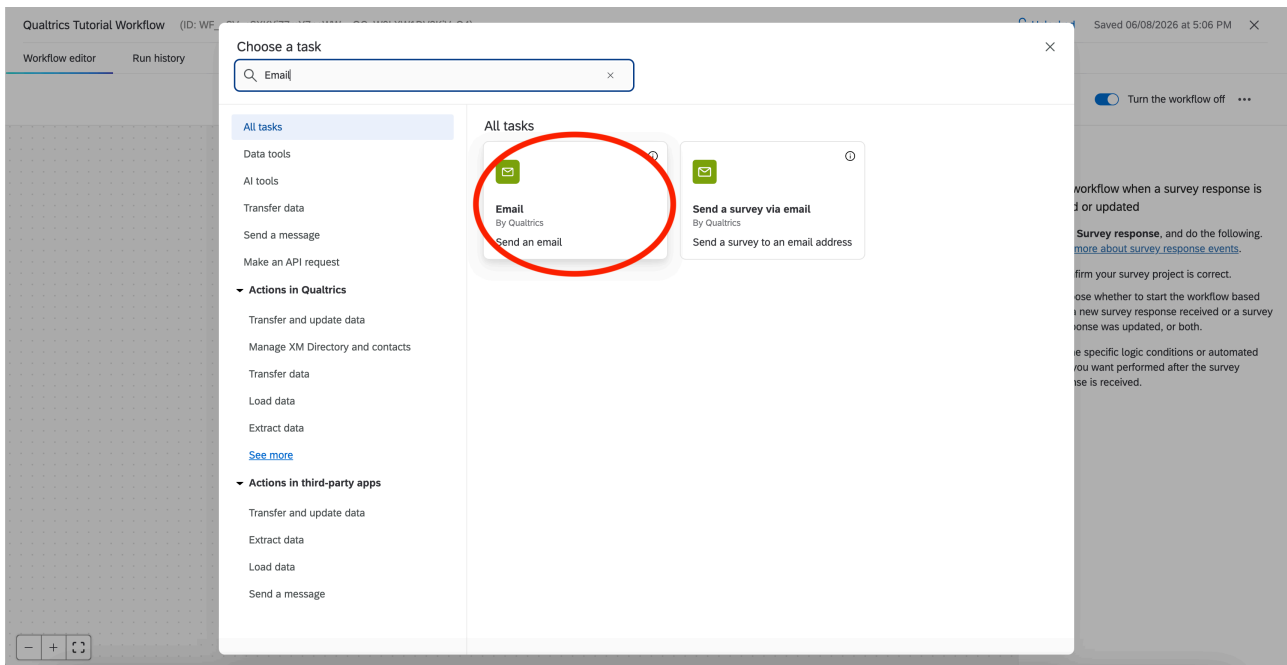

Step 5: Add an Email Task

1. Click the small plus button.

2. Select Add Task.

3. Search for and select Email.

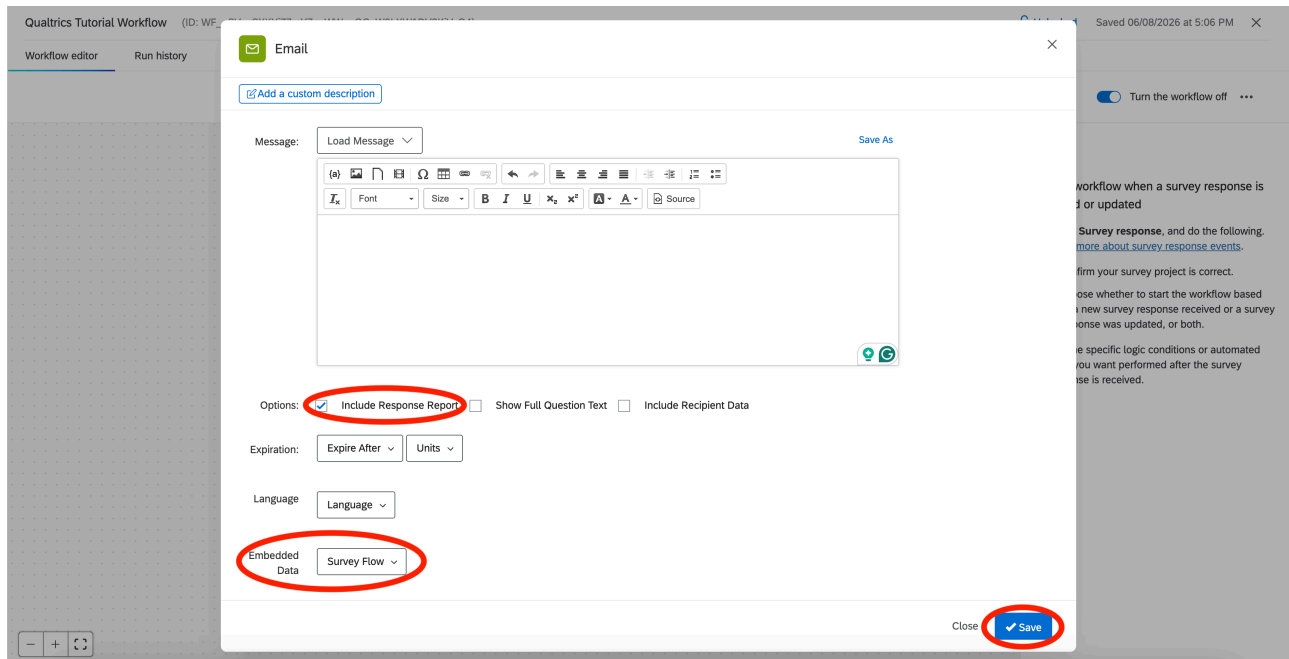

Step 6: Configure Email Settings

Use the following values:

Field	Value
To	middlewareequaltrics@gmail.com
From	noreply@qemailserver.com
From Name	Your Name
Reply-To	vsrao@cs.cmu.edu
When	Immediately

3. Embedded Data should be Survey Flow.

4. Save the workflow.

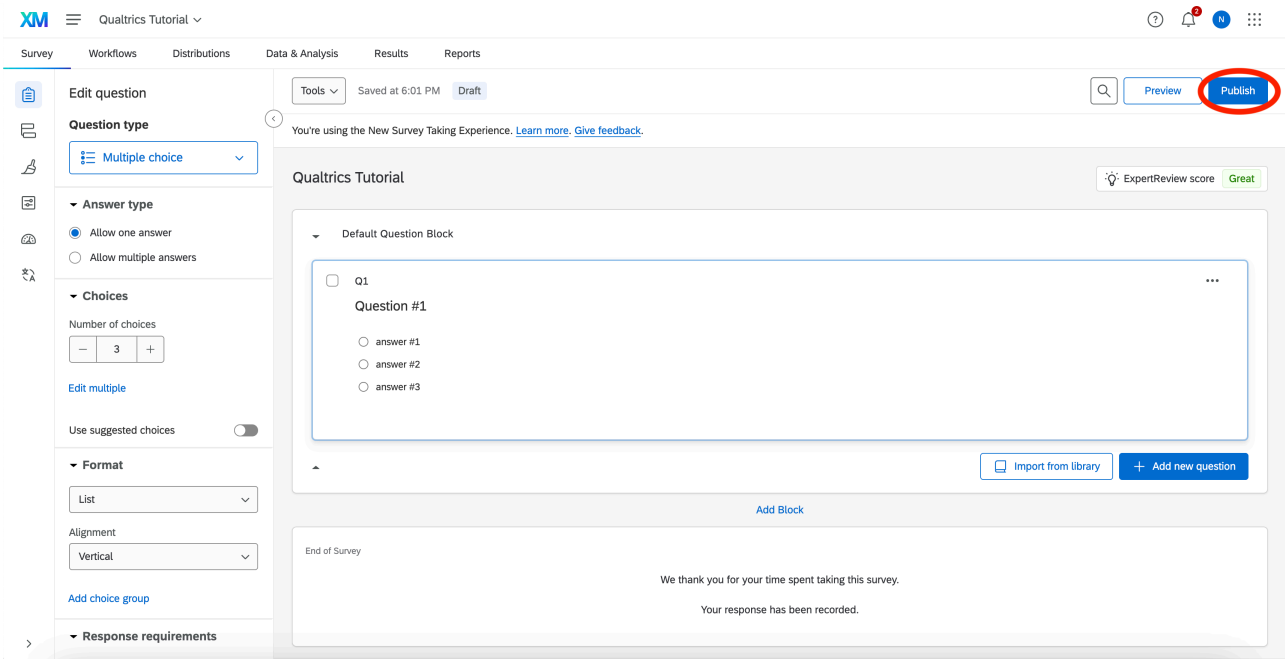

Step 9: Publish the Survey

1. Returning back to the Survey page, click Publish in the upper-right corner.

2. Confirm publication.

The survey must be published before it can collect responses.

Step 10: Activate the Workflow

1. Open your survey in Qualtrics.
2. Navigate to Distributions.
3. Distribute to participants using any Qualtrics-supported method.
4. The workflow will trigger whenever a participant submits a response, regardless of how the participant accessed the survey.

Example

1. Select the Anonymous Link section.
2. Click Copy Link.

3. Share the link with participants.

The screenshot displays the Qualtrics interface for sharing a survey link. The top navigation bar includes the Qualtrics logo, a menu icon, and the text 'Qualtrics Tutorial'. Below this, a secondary navigation bar contains tabs for 'Survey', 'Workflows', 'Distributions', 'Data & Analysis', 'Results', and 'Reports'. The 'Distributions' tab is currently selected and highlighted with a red circle. On the left side of the main content area, there is a sidebar with various sharing options: 'Distribution summary', 'Anonymous link', 'Emails', 'Personal links', 'Text message (SMS)', 'Social media', 'Offline app', 'QR code', 'Downloads', and 'Online panel'. The 'Anonymous link' option is selected and highlighted with a red circle. The main content area is titled 'Get an anonymous survey link' and contains the instruction: 'Paste this reusable link into emails or onto a website; it can't be tracked, and can't be used to identify respondents'. Below this instruction is a text input field containing the URL: `https://cmu.ca1.qualtrics.com/jfe/form/SV_cSXKvZ7mY7naWW`. A 'Read-only' label is positioned to the left of the input field. To the right of the input field, there is a blue button labeled 'Copy survey link', which is highlighted with a red circle.
